FOR THE TIMES.

A Wish.

Dear Mary, I could wish thy brow

Was decked in gems of gold;

But thy fair brow they will not suit,

When stern death leaves it cold.

And for thee, many treasures rare,

But beyond death they will not dare,

But I've a wish for thee, my friend,

A heart that's pure and wisdom true

'Tis these, dear one, will guide thy feet,

They'll pass with thee thro' death's dark

'Tis not of earth, but heaven.

To thee, may these be given.

O'er life's rough paths aright;

I'd wish from isle and sea,

Dear one, to follow thee.

To a renewed call by this government up Central American States of Honduras, Nicaragua, and Costa Rica, the British government has at length replied, affirming that the operatract any possessions held by her in Central America at the date of its conclusion.

This reply substitutes a partial issue in the place of the general one presented by the United States. The British government passes over the question of the rights of Great Britain, real or supposed, in Central America, date of the treaty, and that those rights comprehended the protectorship of the Mosquito the Balize, and the colony of the Bay Islands, and thereupon proceeds by implication to infer that, if the stipulations of the treaty be merely future in effect, Great Britain may still continue to hold the contested portions of Central America. The United States cannot admit either the inference or the premises. We steadily deny that, at the date of the treaty, Great Britain had any possessions there, other than the limited and peculiar establishment at the they were surrendered by the convention.

Among the evanescent controversies of that period, the most conspicuous was the question of regulation by Congress of the social tion of the future States to be founded in the territory of Louisiana.

The ordinance for the government of the te ritory northwest of the river Ohio had contained a provision, which prohibited the use of servile labor therein, subject to the condition of the extradition of fugitives from service due in another part of the United States. Subse quently to the adoption of the constitution, this provision ceased to remain as a law; for its operation as such was absolutely superseded by he constitution. But the recollection of the fact excited the zeal of the social propagandism in some sections of the confederation, and, when second State, that of Missouri, came to be formed in the territory of Louisiana, proposition was made to extend to the latter territory the restriction originally applied to the country situated between the rivers Ohio and Missis

This controversy passed away with the ocasion, nothing surviving it save the dormant letter of the statute.

But, long afterwards, when by the proposed ecession of the republic of Texas, the United States were to take their next step in territorial greatness, a similar contingency occurred, and became the occasion for systematized attempts to intervene in the domestic affairs of one section of the Union, in defiance of their rights as States, and of the stipulations of the stitution. These attempts assumed a practical direction, in the shape of persevering en-Houses of Congress, to deprive the Southern States of the supposed benefit of the provisions of the act authorizing the organization of the State of Missouri.

true interests held up and encouraged.

INTERNAL IMPROVEMENTS.

To this subject we expect to devote as much
space as a full statement of the various operations will require; for as our works of improvements advace, so do all the other interests of
the State.

EDUCATION.

It is a source of regret to all interested in
the educational interests of our State, (and who
is not?) that our papers are so much devoted
to party politics, &e., that this great cause has
been too much neglected; we propose, therefore, to devote to this subject, a portion of our
